**Please Note:**

The delicate, hand-crafted surgical instrument use only for its intended purpose to Ensure effectiveness and maximum life. Proper care must be given during cleaning, sharpening and sterilization to preserve design and integrity and to prolong usefulness. Do not expose instruments to sterilization temperatures above 350° F/177° C or to higher than recommended chemical concentrations." Longer Life for Surgical Instrument" for proper cleaning, sterilization and other instrument care.

**Inspected the instrument after each use for:** pitting; corrosion; discoloration; broken, loose or bent components; cracked handles; dull cutting edges; over sharpened or worn out blades; chipped or peeled plating; damaged hinges, beaks or blades. Instruments found to Have these or other compromising conditions should be removed from service.

**DAI ICHI CORPORATION is an employee owned company of Craftsmen and has got a good reputation for quality and reliability. Our significant manufacturing steps are being described here-under briefly:**

1. **MATERIAL TESTING:** The purchased raw material is thoroughly tested under PQA. authority. A rigid quality control policy is being adopted before releasing to production. This test is taken to check the standard of steel as per desired specifications and is considered the most important factor of our business.
2. **FORGING & HAMMERING:** After testing, the stainless steel strips/bars are divided into different sizes as per our requirements and our highly experienced craftsmen are specialized in forging (Hot/Cold Drop) to perform all standard press operations in forming and deep drawing of all type of instruments. We anneal the forging and prepare for the milling process.
3. **MACHINE & TOOL WORK:** Our highly skilled technicians have a great knowledge about machine milling process. We form accurately male/female portion of box-joint forceps, as well as, serrations/ratches in uniformity. We are equipped to mill, drill, bore turn and grind all type of metals. We have in house facility of custom tool and die production, maintenance and repair.
4. **FILLING:** We are specialized in handmade fabrication. First, we assemble male/female portion after setting/adjusting of Extracting Forceps and Scissors, tips, serrations, ratches in uniformity and file precisely to make it semi-finish under strictly quality control specifications.  
We are now moving from basic hand manufacturing techniques to mechanization to production run.
5. **HEAT TREATMENT:** All instruments are being tempered maintaining "Rock-Well Hardness" for Extracting Forceps & Retractor 45° to 50° degree and Scalar, Gauges and Scalpel 50° to 55° degree. A test is taken to check the hardness after tempering of each lot to maintain the uniformity and, before proceeding further, we clean all instruments by various chemicals. In addition, we will buy specialized Q/C equipment in near future to meet special customer Q/C. Specifications.
6. **RIVETING & WELDING:** We perform a wide variety of assembly operations from prototype quantities to production run. We rivet precisely each instrument such as, Extracting Forceps & Retractor, etc. But, for some kind of instruments, we use spot welding.
7. **GRINDING & POLISHING:** For precise grinding and excellent finish, we specialize in applying polishing wheels to belts to improve the overall finish in high uniformity utilizing best of polishing luster. We use electro-plating plants to polish serrations/ ratches and joints of stainless steel instruments. For satin/matt finish instruments, we use glass heads to achieve uniformity. All instruments are being polished under rigid quality control specifications.
8. **PASSIVATION:** This method actually provides the instruments with its corrosion resistance properties. Passivation, which follows the final polishing step, is a chemical bath, which creates an oxidized layer on the surface of instruments. We are now equipped with most modern process.
09. **ULTRASONIC CLEANING:** We are full equipped with most modern ultrasonic cleaning plants imported from "Branson Cleaning Equipment Co. USA", and all instruments are being cleaned properly utilizing various chemicals such as, Tri-Chloroethlyine etc.
10. **INSPECTION & STAMPING:** We inspect all instruments under rigid Q/C. specifications and give the assurance to our relative clients that all instruments shall be free from all defects such as, burrs, sharp edges, cracks, pitting, scratches, grease / excessive oil and foreign matters etc. We also guarantee for its workmanship. For stamping, we use both process i.e. die sunk and electrolytic marking and are being marked under customer's specifications.
11. **PACKING, LABELING AND BAR CODING:** We pack all instruments under strictly Q/C. specifications as per customer's demand. Normally, we pack individually in poly bag and further 12 pieces in one box mentioning outside with Part Number, Description and Lot Number. All instruments are packed in poly bags/plastic/colour bags, Blister Packing with adequate desiccant in each poly bag to absorb moisture. We are specialized in packaging, labeling and bar coding as per customer demand.

## Our Scalers

Compare our scalers and curettes with the best in the industry and you will immediately recognize we are equal in every way but one... price. Note the deep precision knurling for better tactile feel. The same high-grade stainless steel tips, the same light weight (under 18 grams) for less hand fatigue, the same professional craftsmanship, and surpassing the highest industry standards. Of course, any manufacturer can make these claims, but we guarantee and certify ours.

Beautiful, finished metal in center for deep clean-out, knurling for better non-slip control.  
Titanium coated scales to protect the metal scales.  
2.5x knurling for excellent balance, precision and maneuverability.  
0.5 cm diameter for easier handling and better tactile sensitivity...  
Better control throughout the day.  
Ergonomically designed for maximum control when working from tip to tip.  
100 mm length of handle without tip.

- High-polish mirror finish tips.
- Manufactured within the guidelines of the FDA quality assurance system for good manufacturing practices.
- Highest grade German stainless steel, razor sharp, durable tips. Rockwell hardened to 60 RHc.
- 27 of the most popular designs from graceys to McCalls to columbias, and many european patterns.
- All instruments are guaranteed against defects in material and workmanship.

- All instruments bear the ce mark, emblematic of the european community's highest standards.
- Customer satisfaction guarantee, too!
- Less than 20 grams ... Lightweight for less hand fatigue.
- Manufactured to the most exacting standards so the 50th instrument you buy is exactly like your first.
- You decide ... Why pay more for the same high-quality instruments?
